

Load Support Product Catalog

Adjustable Air Spring Kits and
On-Board Compressor Systems

The Problem

Rough ride and bounce

Body roll

Light steering and braking feel

The Solution

Get Level

Air Lift® Adjustable Air Spring Kits

With a full line of adjustable air spring kits, including the LoadLifter 5000 Ultimate and over 450 fitments, Air Lift is the solution to squat.

See pages 4-13

Get Control

On-Board Compressor Systems

Add an Air Lift on-board air compressor system and turn your air spring kit into a complete load-support system. Popular wireless kits come with a free phone app.

See pages 14-19

For a Lifetime

Warranty*

Load support systems that fit, work and last. We guarantee it.

LoadLifter 7500 XL™ ULTIMATE

Load-leveling capacity:  Up to 7,500 lbs.*

Solution for: Most 3/4 and 1-ton trucks

Warranty: Lifetime** | 60-day satisfaction guarantee

LoadLifter 7500 XL™ ULTIMATE

57500 Series

Leveling Loads
With Less Pressure for a
Better Ride Quality

7500 XL has 20% more volume than
LoadLifter 5000™ and is now engineered
with an internal jounce bumper.

LoadLifter 7500 XL™
Ultimate

LoadLifter 5000™

LoadLifter 7500 XL Ultimate Features

	OUR HIGHEST CAPACITY: With 20% more volume than LoadLifter 5000, the massive 7-inch double-convoluted-bellow air springs create a better ride than most products with similar weight ratings
	Jounce bumper inside the air spring prevents bottoming out and can be safely run with zero air pressure***
	Roll plates protect the air springs
	Air adjustable from 5 to 100 PSI
	Most kits are compatible with 5th wheel and gooseneck hitches
	Most kits require no drilling into the vehicle's frame
	Compatible with all Air Lift on-board compressor systems such as the WirelessAir system and WirelessOne system

*Never exceed manufacturer's recommended Gross Vehicle Weight Rating.
**Official warranty details are listed at www.airliftcompany.com/warranty and are subject to change.
***Maintain minimum air pressure for the ultimate ride comfort. Minimum of 5 PSI must be maintained when used with a control system.

For XL loads

LoadLifter 7500 XL™ Ultimate offers up to 7,500 lbs. of load-leveling capacity* and is designed to support your most demanding loads. What sets the LoadLifter 7500 XL™ Ultimate apart is that it can level the load using less pressure, providing a better ride quality. This makes it the better choice for towing and hauling the heaviest loads with the utmost safety and comfort.

Air Lift ProSeries

Load-leveling capacity: **5K** Up to 5,000 lbs.*

Solution for: Most 1/2, 3/4 and 1-ton trucks

Warranty: Lifetime** | 60-day satisfaction guarantee

Standard Composite Endcaps

ProSeries Aluminum Anodized Endcaps

Air Lift ProSeries 93000 Series Featuring Aluminum Anodized End Caps

While our standard composite endcaps provide outstanding durability, ProSeries endcaps take durability and longevity to another level, as they are precisely manufactured from a single billet of aluminum.

ProSeries Features

	PROSERIES EXCLUSIVE: Aluminum anodized end caps for enhanced durability and longevity
	Stainless steel attaching hardware provides superior corrosion resistance
	Roll plates protect the air springs
	Air adjustable from 5 to 100 PSI
	Most kits are compatible with 5th wheel and gooseneck hitches
	Most kits require no drilling into the vehicle's frame
	Compatible with all Air Lift on-board compressor systems such as the WirelessAir system and WirelessOne system

*Never exceed manufacturer's recommended Gross Vehicle Weight Rating.

**Official warranty details are listed at www.airliftcompany.com/warranty and are subject to change.

***Maintain minimum air pressure for the ultimate ride comfort. Minimum of 5 PSI must be maintained when used with a control system.

Go with the Pro

Air Lift® ProSeries is available for popular Ford, Chevy and RAM trucks. ProSeries air springs include heavy-duty aluminum anodized end caps unavailable on any other Air Lift product. This exclusive feature provides greater durability for hauling heavy loads. ProSeries is a professional-grade product designed for the pro installer and the DIYer alike.

LoadLifter 5000™

Load-leveling capacity: **5k** Up to 5,000 lbs.*

Solution for: Most 1/2, 3/4 and 1-ton trucks

Warranty: Lifetime** | 60-day satisfaction guarantee

Level heavy loads with safety and comfort

Air Lift® LoadLifter 5000™ Series kits are specifically engineered for towing and hauling demanding loads. These tough, durable air springs provide up to 5,000 pounds of leveling capacity* and are fully adjustable for a stable, level and comfortable ride whether loaded or unloaded. With no-compromise construction and load-lifting capabilities, the LoadLifter 5000™ Series provides the ultimate combination of leveling ability, adjustability and ride quality.

RideControl™

Load-leveling capacity:  Up to 2,000 lbs.*

Solution for: Some 1/2 ton trucks | SUVs

Warranty: Lifetime** | 60-day satisfaction guarantee

RideControl Features

	EXCLUSIVE: Air Lift exclusive alignment tool for easy installation
	Air adjustable from 5 to 100 PSI
	Most kits require no drilling into the vehicle's frame
	Compatible with all Air Lift on-board compressor systems such as the WirelessAir system and WirelessOne system

*Never exceed manufacturer's recommended Gross Vehicle Weight Rating.
**Official warranty details are listed at www.airliftcompany.com/warranty and are subject to change.

Load-leveling with a smooth ride

Many of today's most popular light-to-medium duty trucks and vans are built for a more comfortable, car-like ride. That's fine when the vehicle is lightly loaded, but add a heavy load and the vehicle squats, compromising ride quality and safety. **Air Lift® RideControl™** air spring kits bring the vehicle back to level, restoring safety and comfort.

Air Lift 1000™

Load-leveling capacity: **1k** Up to 1,000 lbs.*

Solution for: SUVs, CUVs, cars, minivans and trucks with open coils motorhomes/RVs

Warranty: Lifetime** | 60-day satisfaction guarantee

Air Lift 1000 Features

- Air Lift 1000 is air adjustable from 5 to 35 PSI (90 PSI for motorhomes)
- Tough molded polyurethane construction
- Most kits require no drilling into the vehicle's frame
- Compatible with most Air Lift on-board compressor systems such as the WirelessAir system and WirelessOne system

Air Lift 1000™

60000 | 80000 Series

Adjustable Load Support for Coil Sprung Vehicles

Air Lift 1000 HD™

Load-leveling capacity: **2.1k** Up to 2,100 lbs.*

Solution for: 2009-2023 RAM 1500

Warranty: Lifetime** | 60-day satisfaction guarantee

Air Lift 1000 HD Features

- Air adjustable from 5 to 50 PSI
- Schrader valve for secure air line connection
- Tough molded polyurethane construction
- Most kits require no drilling into the vehicle's frame
- Compatible with most Air Lift on-board compressor systems such as the WirelessAir system and WirelessOne system

Air Lift 1000 HD™

60000HD Series

Our Highest-Rated Coil Spring Insert

A RAM 1500 Exclusive

The original

Air Lift 1000™ adjustable air springs are engineered for open coil spring suspensions, front or rear. Air Lift's most versatile air spring provides load-leveling for cars, SUVs, minivans and motorhomes. Air Lift 1000 HD provides even more load-leveling capacity, exclusively for RAM trucks. Whether our original "red bag" or the 1000 HD, Air Lift 1000 Series provides uncompromising safety and comfort, loaded or unloaded.

WirelessAir™

● Standard ○ Not available + Available as an upgrade

Advanced Wireless Control

WirelessAir™ is a dual-path, wireless control system that includes a heavy-duty compressor. Air springs are controlled with the wireless controller or with a compatible smartphone. WirelessAir is also available with the EZ Mount for a cleaner and quicker installation. The WirelessAir Tank + EZ Mount includes all the benefits of the EZ Mount kit, plus an auxiliary air tank for quicker air spring inflation and a coiled air hose, making air readily available for tires, toys or wherever needed.

The handheld wireless controller with 3 user-defined presets makes it easy to level your load from inside or outside the vehicle.

WirelessOne™

Solution for: Most brands of air springs

Warranty: 2-year* | 4-year** | 60-day satisfaction guarantee

● Standard ○ Not available + Available as an upgrade

Wireless Control

WirelessOne™ is a single-path, wireless control system with a standard-duty compressor. Air springs are controlled with the wireless controller or with a compatible smartphone. WirelessOne is also available with the EZ Mount, which upgrades to a heavy-duty compressor and allows for a cleaner and quicker installation. The WirelessOne Tank + EZ Mount includes all the benefits of the EZ Mount kit, plus an auxiliary air tank for quicker air spring inflation and a coiled air hose, making air readily available for tires, toys or wherever needed.

The handheld wireless controller with 3 user-defined presets makes it easy to level your load from inside or outside the vehicle.

LoadController™

Solution for: Most brands of air springs

Warranty: 2-year* | 60-day satisfaction guarantee

Both Single- and Dual-Path LoadController Compact come with a gauge pod or can be mounted in-dash

LoadController™ Panel

Single-Path
P/N 25592

Deflate Both
Inflate Both

LoadController Features	
	Compatible with all Air Lift air spring kits and most other brands
	Control buttons are built into the gauge to reduce overall size — no need to find room in the vehicle to mount a large gauge panel
	LoadController Compact models include a mounting pod. Also fits in any 2-1/8" gauge pod or can be flush mounted
	Dual-path control means that drivers can set the left and right air springs to different pressures — perfect for users with uneven or top-heavy loads (P/N 25856)
	Single-path control sets both air springs to the same pressure (see below for single-path P/Ns)
	Low-pressure sensor automatically activates the air compressor if air spring pressure falls below safe level to protect air springs
	Includes everything you need to easily install — compressor, wiring harness, air lines, gauge pod and hardware

Analog In-Cab Control

Whether hauling a heavy load or riding light, **LoadController™** on-board air compressor systems provide in-cab control of air springs at an economical price point. LoadController is available in 3 configurations: Compact Single-Path (P/N 25854), Compact Dual-Path (P/N 25856) and Panel Single-Path (P/N 25592).

Compact models can be mounted in-dash or with the included mounting pod (dual-path gauge pictured left), while the panel model comes pre-mounted for quick under-dash installation.

Universal Air Spring Cradle

For Lifted Trucks

Solution for: Most brands of air springs*

Warranty: Lifetime** | 60-day satisfaction guarantee

Universal Air Spring Cradle

P/N 52500

Allows for Full Extension of Vehicle Suspension

- Fits all Air lift LoadLifter 5000™ series air spring kits as well as many other brands*
- Mounting hardware included for all LoadLifter 5000 integrations.

Universal Air Spring Cradle Features

	Allows for full extension of the vehicle's suspension
	Perfect solution for lifted vehicles
	Recessed mounting holes for bolt-up or bolt-down installation
	Made from durable and lightweight engineered resin
	Drain holes to help clear water and debris

* For bellows-style air springs only. Does not fit LoadLifter 7500 XL Ultimate or sleeve-style springs such as RideControl™.

**Official warranty details are listed at www.airliftcompany.com/warranty and are subject to change.

Allows full extension of lifted truck suspension

Universal Air Spring Cradles allow the air spring to become detached from the lower bracket, allowing full extension of the vehicle's suspension while having a seat for the air spring to set into on compression of the suspension and during everyday driving.

Universal Air Spring Spacer

For Lifted Trucks

Solution for: Most brands of air springs*

Warranty: Lifetime** | 60-day satisfaction guarantee

Universal Air Spring Spacer
Load-leveling for Already Lifted Trucks

P/N	Height	Configuration
52420	2"	Straight
52445	4"	Angled
52440	4"	Straight
52465	6"	Angled
52460	6"	Straight

Universal Air Spring Spacer Features

- Made with high-grade 1/4" steel
- Unique spinal design makes it easy to attach air springs
- All hardware included in the box for connecting to lower bracket and air spring
- Works with most brands of bellows-style air springs (including Air Lift's LoadLifter 7500 XL Ultimate)
- Available in 6" straight and 6" angled
- Available in 4" straight and 4" angled
- Available in 2" straight (2" not available in angled configuration)

*For bellows-style air springs only. Does not fit sleeve-style springs such as RideControl™
**Official warranty details are listed at www.airliftcompany.com/warranty and are subject to change.

Get Level While Lifted

Universal Air Spring Spacers allow for the addition of an air spring kit to an already lifted truck. Just add any popular air spring brand, such as LoadLifter 7500 XL™ Ultimate, for load-leveling with safety and comfort... even while lifted.

Product Overview

Air Lift offers over 450 fitments. See our Application Guide, go online or give us a call to check if we fit your vehicle.
